AUTHORITY: §§ 904.100 to 904.110, inclusive, issued under 49 Stat. 753 as amended; 7 U. S. C. 601 et seq.

§ 904.100 *Findings and determinations.* Pursuant to the provisions of Order No. 4 as amended (8 F. R. 3109, 8294; 9 F. R. 4972; 11 F. R. 5897, 10693, 14093) and of the Administrative Procedure Act (60 Stat. 237) a public meeting was held at Boston, Massachusetts, on July 15, 1947, to consider proposed amended rules and regulations to supersede the rules and regulations¹ issued by the market administrator to effectuate the terms and provisions of said order. The data, views, and arguments presented at this meeting and all written material received prior to July 19, 1947, have been considered and it is hereby found and determined that the following rules and regulations are necessary to effectuate the terms and provisions of Order No. 4, as amended, issued by the Secretary on July 21, 1947, and made effective August 1, 1947.

It is further found and determined that to defer the effective date of the said rules and regulations to a date thirty days or more after publication in the FEDERAL REGISTER would be impractical, unnecessary, and contrary to the public interest because said rules and regulations are being issued to effectuate the terms and provisions of Order No. 4 as it has been most recently amended and the effective date of the rules and regulations should be the same as the effective date of said amended order.

§ 904.101 *Scope.* The rules and regulations in §§ 904.101 to 904.110, inclusive, are made by the market administrator pursuant to § 904.2 (c) (2) of "Order No. 4, as Amended, Issued by the Secretary of Agriculture, Regulating the Handling of Milk in the Greater Boston, Massachusetts, Marketing Area" hereinafter referred to as "the order"

§ 904.102 *Application of definition of producer-handler and of segregated dairy farmer—(a) Receipts from producer-handlers.* (1) Milk received in packaged form from a producer-handler shall be considered as a receipt from a handler.

(2) Milk received from a producer-handler for the purpose of being processed or packaged for him shall be considered as a receipt from a handler. However, any excess of receipts in bulk from a producer-handler over the quantity of processed or packaged milk re-

turned to him during the month shall be considered as a receipt from a dairy farmer.

(b) *Receipts from segregated dairy farmers.* Milk received from dairy farmers and handled in conformity with subparagraphs (1) and (2) of this paragraph shall be considered as receipts from segregated dairy farmers. The burden of proof rests on the handler who receives the milk from dairy farmers to establish such handling.

(1) In the process of being received at the handler's plant, the milk was kept entirely separate from the milk of producers and from any other fluid milk products shipped to or disposed of in the marketing area.

(2) The milk was not shipped to or disposed of in the marketing area in any form of fluid milk products, and was not intermingled with any other fluid milk products shipped to or disposed of in the marketing area.

§ 904.103 *Classification of milk and other fluid milk products—(a) Application of this section.* The provisions of this section shall apply only to fluid milk products which are not required to be classified as Class I milk pursuant to § 904.3 (c) (2) and (3) of the order.

(b) *Fluid milk products disposed of to consumers.* Fluid milk products disposed of by a handler or dealer to consumers shall be classified as follows:

(1) Milk, flavored milk, cultured or flavored skim milk, and buttermilk shall be classified as Class I milk, except as provided in subparagraphs (3) and (4) of this paragraph.

(2) Cream and skim milk shall be classified as Class II milk.

(3) Sour milk and milk otherwise unsuitable for human consumption as milk, which is disposed of to a livestock farmer and used by him for animal feed, shall be classified as Class II milk.

(4) Flavored milk, cultured or flavored skim milk, and buttermilk, which is disposed of to a livestock farmer and used by him for animal feed, shall be classified as Class II milk.

(c) *Fluid milk products manufactured into other milk products.* Fluid milk products manufactured by a handler or dealer into other milk products shall be classified as Class II milk, unless the resulting milk product is subsequently reconverted into fluid milk products for which Class II utilization is not established. Specifically, the following shall be considered to be milk products:

Acidophilus Milk.
Butter.
Buttermilk Powder.
Casein.
Cheese and Cheese Paste.
Condensed Milk.
Condensed Skim Milk.
Egg nog (unless found to be flavored milk).
Evaporated Milk.
Evaporated Skim Milk.
Ice Cream, Ice Cream Mix, and Similar Frozen Desserts.
Milk Powder.
Nonfat Dry Milk Solids (skim powder).
Whey and Whey Products.
Yarhout (Bulgarian milk).

(d) *Miscellaneous uses.* Fluid milk products used or disposed of by a han-

dler or dealer in accordance with this paragraph shall be classified as follows:

(1) Milk dumped or discarded shall be classified as Class I milk, unless established as sour milk or milk otherwise unsuitable for human consumption as milk.

(2) Fluid milk products dumped or discarded, except milk suitable for human consumption as milk, shall be classified as Class II milk.

(3) Fluid milk products destroyed or spilled under extraordinary circumstances shall be classified as Class II milk.

(4) Plant shrinkage in excess of 2 percent of the volume of fluid milk products handled shall be classified as Class I milk.

(e) *Inventories.* Fluid milk products on hand at any plant at the close of the month may be classified tentatively as Class II milk, subject to final classification in the following month.

§ 904.104 *Plant shrinkage—(a) Application of this section.* The provisions of this section shall apply in determining the quantity of plant shrinkage to be classified as Class II milk pursuant to § 904.3 (a) (2) (ii) of the order.

(b) *Requirement to establish plant shrinkage.* (1) Plant shrinkage may be considered as established only if both the volume of fluid milk products handled during the month and the total of specific uses of fluid milk products during the month are established.

(2) If plant shrinkage is not established, the total quantity of fluid milk products not specifically accounted for shall be classified as Class I milk.

(c) *Computation of volume handled and of total of specific uses.* (1) The volume of fluid milk products handled by a handler during the month shall consist of the total receipts of fluid milk products at the handler's regulated plants, plus the opening inventory, and minus the closing inventory, at such plants. In computing the volume handled, receipts from segregated dairy farmers shall not be included.

(2) Each handler's total of specific uses of fluid milk products during the month shall consist of the total quantity of fluid milk products the specific disposition of which is established at the handler's regulated plants, minus the quantity of syrup or other flavoring material disposed of in flavored milk or flavored skim milk. Receipts from segregated dairy farmers shall not be included in such total.

(d) *Determination and classification of plant shrinkage.* (1) Plant shrinkage shall be determined by deducting the total of specific uses from the volume handled. The remainder, if it can reasonably be considered to represent the loss or shrinkage in fluid milk products normally incurred by the handler in the receiving, processing, packaging, and distribution of the milk and milk products handled by him, shall be considered his plant shrinkage.

(2) The classification of plant shrinkage shall be determined by computing 2 percent of the volume handled, and comparing the result with the plant shrinkage. Plant shrinkage not in excess of

¹ These rules and regulations were not filed with the Division of the Federal Register.

such result shall be classified as Class II milk. Plant shrinkage in excess of such result shall be classified as Class I milk.

§ 904.105 *Butterfat subject to the butter and cheese adjustment*—(a) *Application of this section.* The provisions of this section shall apply in determining the quality of butterfat subject to the butter and cheese adjustment provided in § 904.7 (d) of the order. As used in this section, the term "Cheddar-type cheese" shall mean Cheddar cheese, American Cheddar cheese, Colby cheese, washed curd cheese, or part skim Cheddar cheese; and the term "salted butter" shall mean butter which contains not less than 1.5 percent of salt by weight. The definitions and standards of identity issued by the Food and Drug Administration of the United States Department of Agriculture, insofar as they are applicable, shall govern in determining whether cheese is Cheddar-type cheese.

(b) *General provisions for determining quantity subject to the adjustment.* (1) The butter and cheese adjustment shall not apply to the butterfat in receipts of milk from dairy farmers who are not producers, receipts of butterfat in farm-separated cream, and receipts of butterfat in other fluid milk products derived from nonpool milk, regardless of the form in which the butterfat is received or used at any plant.

(2) The butter and cheese adjustment shall not apply to butterfat processed into salted butter or Cheddar-type cheese at any plant other than a plant of the first handler of the butterfat or of a second person to which the butterfat is moved.

(3) In general, the butter and cheese adjustment shall apply only to butterfat processed into salted butter or Cheddar-type cheese during any of the months of April through July. In the case of movements of butterfat to the plant of a second person, however, the date of shipment to such person, rather than the date of processing shall govern. Accordingly, the adjustment shall not apply to butterfat shipped to a second person during March, but shall apply to butterfat so shipped during July if the butterfat is otherwise eligible for the adjustment.

(4) The butter and cheese adjustment shall not apply to butterfat which is disposed of by the first handler or the second person in a form other than salted butter or Cheddar-type cheese after being processed into those products. However, if the salted butter or Cheddar-type cheese is held in inventory by the first handler or the second person at the close of any month, the butterfat in such butter or cheese may be tentatively considered as eligible for the adjustment, subject to proof of the form in which the butterfat was subsequently disposed of by the first handler or the second person.

(5) The butter and cheese adjustment may apply to the butterfat in route returns which is processed into salted butter or Cheddar-type cheese, except as provided in subparagraph (1) of this paragraph.

(c) *Assignment of identified butterfat to source.* When the source of butterfat processed into salted butter or Cheddar-

type cheese at any plant is established by the processor's records, the butterfat shall be assigned to that source.

(d) *Assignment of unidentified butterfat to source.* When the source of butterfat processed into salted butter or Cheddar-type cheese at any plant is not established by the processor's records, the butterfat so used shall be assigned in the following manner:

(1) Butterfat processed into salted butter shall first be assigned to the butterfat in receipts of farm-separated cream at the plant, unless the records establish other uses of the cream.

(2) Butterfat processed into salted butter or Cheddar-type cheese at a plant at which the receipts of butterfat in fluid milk products are derived partly from pool milk and partly from nonpool milk shall be assigned proportionately to butterfat derived from pool milk and from nonpool milk, except as provided in subparagraph (1) of this paragraph.

(3) After butterfat processed into salted butter or Cheddar-type cheese has been assigned to butterfat derived from nonpool milk as provided in subparagraphs (1) and (2) of this paragraph, any remaining quantity of butterfat so processed shall first be assigned to the processing handler's receipts from producers, and then to his receipts from other handlers.

(4) Butterfat shipped to the plant of another person for processing into salted butter or Cheddar-type cheese shall be assigned to the butterfat in the shipping plant's receipts from pool sources and from nonpool sources in the manner set forth in subparagraph (2) of this paragraph. The butterfat assigned to pool sources shall be considered eligible for the butter and cheese adjustment, but not in excess of the quantity of butterfat available at the shipping plant from the handler's receipts from producers.

§ 904.106 *Due dates for reports of receipts and disposition*—(a) *Application of this section.* The provisions of this section shall apply with respect to the due dates for the filing of reports by nonpool handlers relating to their total receipts and utilization of fluid milk products, and to the filing of reports by all handlers relating to their purchases of outside cream, pursuant to paragraphs (b) and (c) of § 904.6 of the order.

(b) *Reports of buyer-handlers and producer-handlers.* (1) Each buyer-handler and producer-handler whose daily average disposition of milk during the month is at least 300 quarts per day shall report on or before the 8th day after the end of the month.

(2) Except as provided in subparagraph (3) of this paragraph, each buyer-handler or producer-handler whose daily average disposition of milk during each month is less than 300 quarts per day shall report semiannually. The handler shall report on or before July 8 with respect to his receipts and disposition of fluid milk products in the preceding six months' period ended June 30, and shall report on or before January 8 for the preceding six months' period ended December 31.

(3) Any buyer-handler or producer-handler whose daily average disposition

(2) The receipts of milk from his own production, and from other dairy farmers, including receipts from segregated dairy farmers;

(3) The total quantity of Class I milk disposed of to consumers without intermediate movement to another plant, showing the respective quantities so disposed of in the marketing area and outside the marketing area;

(5) The total quantity of fluid milk products disposed of as Class II milk, and information as to the quantities so disposed of to individual handlers and dealers.

§ 904.108 *Averaging of producers' semimonthly butterfat tests.* In making payments for milk to each producer, pursuant to § 904.9 of the order, each handler may determine the average butterfat content of the milk by using the simple average of the butterfat tests of semimonthly composite samples of the milk, unless the difference between the semimonthly tests is more than two points (0.2%) or the quantity of milk delivered by the producer in either semimonthly period is as much as three times as large as his deliveries in the other semimonthly period.

§ 904.109 *Deductions from payments to producers—(a) Authorization for deductions.* In making payments to producers as required by § 904.9 (a) and 904.9 (b) (1) of the order, the burden shall rest upon the handler making deductions from such payments to prove that each deduction is properly authorized, and properly chargeable to the producer.

(b) *Deductions for cooperative associations.* Upon receipt of notice from the market administrator that there is an error in the claim filed by a cooperative association pursuant to § 904.10 (e) of the order, the handler shall be relieved of the obligation to make that part of the deductions which was claimed in error, as determined by the market administrator.

§ 904.110 *Weights of fluid milk products—(a) Application of this section.* The provisions of this section shall apply in determining the respective quantities of fluid milk products received or used by each handler or dealer

(b) *Basis for determination of quantity.* The determination of the quantity of fluid milk products received or used by each handler or dealer shall be on the basis of the weight, in pounds, of the fluid milk products.

(c) *Standard weights.* In the absence of specific weights the weight of fluid milk products received or disposed of in a quart or 40-quart container shall be determined according to the following table, and the weight of such products in any other container shall be determined by multiplying the equivalent number of quarts by the respective standard weight per quart container.

§ 947.0 *Findings and determinations—*

(a) *Finding upon the basis of the hearing record.* Pursuant to Public Act, No. 10, 73d Cong. (May 12, 1933) as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Supps. 900.1 et seq., 11 F. R. 7737, 12 F. R. 1159) public hearings were held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Fall River, Massachusetts, marketing area; and the decision (12 F. R. 4756) was made with respect to amendments by the Secretary on July 11, 1947. Upon the basis of the evidence introduced at such hearings and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions of said order, as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest, and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Additional findings.* It is necessary to make effective promptly the present amendments to the said order, as amended, to reflect current marketing conditions and to give producers immediately some assurance of a substantial seasonal increase in prices as an incentive to a needed increase in milk production during the fall and winter months of 1947-48. Any delay in the effective date of this order, as amended, and as hereby further amended, will seriously threaten the supply of milk for the Fall River, Massachusetts, marketing area and, therefore, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this

order for 30 days after its publication (Sec. 4 (c) Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by this order, as amended, and as hereby further amended, which is marketed within the Fall River, Massachusetts, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this amended order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area;

(3) The issuance of this amended order is approved or favored by at least two-thirds of the producers who, during the determined representative period (June 1947) were engaged in the production of milk for sale in the said marketing area; and

(4) The adoption of the provision which provides for the payment to all producers and cooperative associations delivering milk to the same handler of uniform prices for all milk delivered by them is approved or favored by at least three-fourths of the producers who, during a representative period (June 1947) were engaged in the production of milk for sale in the said marketing area.

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Fall River, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended to read as follows:

§ 947.4 *Applications of provisions.* (a) Sections 947.6, 947.8, 947.9, and 947.10 are not applicable to any producer-handler as herein defined.

(b) Milk received by a handler from a producer-handler shall be considered as being received from a producer.

§ 947.5 *Classification of milk*—(a) *Responsibility of handlers.* In establishing the classification of milk received by a handler the burden rests upon the handler who received the milk from producers to account for all milk received at each plant at which milk is received from producers, and to prove that such milk should not be classified as Class I. The burden rests upon the handler who distributes milk in the marketing area to establish the source of all milk received.

(b) *Classes of milk.* Milk received by each handler at a plant where milk is received from producers shall be classified in Class I or Class II in accordance with subparagraphs (1) and (2) of this paragraph, subject to paragraphs (c) and (d) of this section.

(1) All milk the utilization of which is not established as Class II shall be Class I.

(2) Class II milk shall be all milk which is accounted for as (i) sold, distributed, or disposed of other than as milk which contains one-half of 1 percent or more but less than 16 percent of butterfat, and other than as chocolate or flavored whole or skim milk, buttermilk, or cultured skim milk, for human consumption; and (ii) actual plant shrinkage not in excess of 2 percent of milk received from all sources including the handler's own production but not including receipts from other handlers who receive milk from producers or milk received completely processed and packaged from a Federal order plant.

(c) *Transfers of milk from a plant at which milk is received from producers.*

(1) Transfers to a producer-handler shall be Class I.

(2) Transfers to another handler not a producer-handler or to a Federal order plant shall be classified as reported by the seller, or, if the seller submits no report, as reported by the buyer: *Provided*, That the quantity classified as Class II milk shall not exceed the total quantity of Class II milk of such buyer during the delivery period.

(3) Transfers to a plant, other than a plant at which milk is received from producers or a Federal order plant, from which milk is distributed or at which milk products are manufactured shall

be Class I not to exceed the total Class I at such plant during the delivery period.

(d) *Classification of milk received at plants at which milk is received from producers.* For each delivery period each handler shall report the classification of milk which was received at plants at which milk is received from producers by making computations in the order indicated as follows:

(1) Determine the pounds of milk, skim milk, cream, and other milk products received at all plants of the handler at which milk is received from producers (i) from producers, including own production, (ii) from dairy farmers designated for other markets, (iii) in the form of products received completely processed and packaged from a Federal order plant, (iv) in the form of bulk milk received from another Federal order plant, (v) from other handlers who receive milk from producers, and (vi) from other sources, and the total.

(2) Determine the total pounds of milk, skim milk, cream, and other milk products utilized in Class II products including allowable plant shrinkage as provided in § 947.5 (b) (2) (ii)

(3) Prorate allowable plant shrinkage classified as Class II to producer milk, milk from dairy farmers designated for other markets, bulk milk received from a Federal order plant, and other source milk, and deduct such plant shrinkage from total Class II computed pursuant to subparagraph (2) of this paragraph.

(4) Classify other source milk as Class II in an amount no greater than the amount of Class II remaining.

(5) Deduct from the remaining pounds in each class the quantity of milk, skim milk, cream, and other milk products received from other handlers who receive milk from producers and classified according to paragraph (c) (2) of this section, and Class I and Class II products received completely processed and packaged from a Federal order plant classified according to the actual use established.

(6) Prorate remaining Class II to producer milk, milk from dairy farmers designated for other markets, and bulk milk received from a Federal order plant: *Provided*, That the amount of producer milk classified as Class II inclusive of plant shrinkage shall not exceed 5 percent of the total amount of producer milk.

(7) Deduct any remaining Class II amounts from the total quantity received from producers and the remainder is Class I producer milk.

(8) From the total receipts from each source listed in subparagraph (1) of this paragraph deduct the amount classified as Class II for each source in subparagraphs (3) (4) (5) (6) and (7) of this paragraph and the remainder from each source is Class I. *Provided*, That the total Class I utilization in the marketing area is not more than the Class I producer milk determined in this subparagraph plus Class I milk received from Federal order plants and Class I milk from plants located outside Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, and New York.

§ 947.6 *Minimum prices*—(a) *Class I prices*. (1) Each handler shall pay producers or cooperative associations for their milk containing 3.7 percent butterfat, during each delivery period, in the manner set forth in § 947.8 and subject to the differentials set forth in paragraph (c) of this section, for Class I milk delivered by them, not less than the price per hundredweight determined as follows:

(i) Using the period beginning with the 25th of the second preceding month and ending with the 24th of the immediately preceding month, compute the average of the highest prices reported daily by the United States Department of Agriculture for U. S. Grade A (U. S. 92-score) butter at wholesale in the New York market.

(ii) Using the midpoint of any range as one quotation, compute the average of all the hot roller process nonfat dry milk solids quotations per pound for "other brands, animal feed, carlots, bags, or barrels," and for "other brands, human consumption, carlots, bags, or barrels," published during the 30 days ending on the 24th day of the immediately preceding month in "The Producers' Price Current;" subtract 4 cents; and multiply the remainder by 1.8.

(iii) Add the values determined pursuant to subdivisions (i) and (ii) of this subparagraph.

(iv) Subject to subdivisions (v) (vi) and (vii) of this subparagraph, the Class I price per hundredweight shall be as shown in the following table:

(b) *Class II prices*. (1) Except as provided in subparagraph (2) of this paragraph, each handler shall pay producers or cooperative associations for their milk in the manner set forth in § 947.8 not less than the price per hundredweight, for milk containing 3.7 percent butterfat calculated for each delivery period by the market administrator as follows:

(i) Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market, reported by the United States Department of Agriculture for the delivery period during which such milk is delivered, multiply the result by 3.7 and subtract 15 cents.

(ii) Add any plus amount which results from the following computations: using the midpoint in any range as one quotation, compute the average quotation per pound of nonfat dry milk solids in carlots for roller process human food products in barrels, and for hot roller process animal feed products in bags, as published during the delivery period by the United States Department of Agriculture for New York City. Multiply each such quotation by the applicable percentage indicated for the delivery period in the following table and combine the results, subtract 4 cents, and multiply the remainder by 7.5.

(2) For milk delivered to a handler from producers' farms at a plant located more than 100 miles from the City Hall in Fall River, the price shall be the amount computed pursuant to subparagraph (1) of this paragraph minus 14 cents.

(c) *Butterfat differential*. If any producer has delivered to any handler during any delivery period milk having an

average butterfat content other than 3.7 percent, such handler shall, in making the payments to such producer prescribed by paragraph (a) of § 947.8, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator as follows: Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the delivery period during which such milk is delivered, or the last such price reported for a delivery period if no such price is reported for the period between the 16th day of the preceding month and the 15th day inclusive of the delivery period during which such milk is delivered, subtract $1\frac{1}{2}$ cents and divide the result by 10.

(d) *Computation of transportation allowances*. For the purpose of this section, the milk which was disposed of during each delivery period by each handler as Class I milk from a plant located within 100 miles of the City Hall in Fall River shall be presumed to have been, first, that milk which was received directly from producers' farms at such plant, and then that milk which was shipped from the nearest plant located more than 100 miles from the City Hall in Fall River.

§ 947.7 *Determination of uniform prices to producers*—(a) *Computation of value of milk of basic test received by each handler from producers*. For each delivery period the market administrator shall compute the value of milk received by each handler from producers in the following manner:

(1) Multiply the quantity of milk received from producers and classified in Class I and Class II pursuant to § 947.5 (d) by the respective class prices pursuant to § 947.6 (a) and (b).

(2) Combine the resulting values.

(b) *Computation of uniform prices*. The market administrator shall compute for each handler the uniform price per hundredweight of milk received from producers during each delivery period in the following manner:

(1) Add to the total value computed pursuant to paragraph (a) of this section the total amount of the differentials pursuant to § 947.8 (b) and

(2) Divide the amount computed pursuant to subparagraph (1) of this paragraph by the total quantity of milk received from producers. This result shall be the handler's uniform price for milk containing 3.7 percent butterfat.

(c) *Announcement of uniform prices*. The market administrator shall, on or before the 11th day after the end of each delivery period, mail to each handler and publicly announce:

(1) The uniform prices per hundredweight computed pursuant to paragraph (b) of this section; and

(2) The Class II price and the butterfat differential.

§ 947.8 *Payments for milk*—(a) *Time and method of payment.* (1) On or before the 1st day after the end of each delivery period, each handler shall make payment to producers for the approximate value of milk received during the first 15 days of such delivery period. On or before the 17th day after the end of each delivery period, each handler shall make payment for the total value of milk received from producers or cooperative associations during the preceding delivery period, computed pursuant to § 947.7, subject to the differentials set forth in paragraph (c) of § 947.6 and paragraphs (b) and (c) of this section as follows:

(i) To producers, at not less than the uniform price per hundredweight announced pursuant to § 947.7 (c) for the quantity of milk received from each producer.

(ii) To a cooperative association for milk which is caused to be delivered to a handler from producers by such cooperative association, and for which such cooperative association collects payment, a total amount equal to not less than the sum of the payments otherwise payable to such producers individually, pursuant to subdivision (i) of this subparagraph.

(b) *Differential for plant handling and transportation.* The payments to be made by handlers to producers, pursuant to paragraph (a) of this section shall be reduced by differentials as follows: With respect to milk received from a producer at a plant located more than 100 miles from the City Hall in Fall River, a sum of 13 cents plus an amount per hundredweight equal to the lowest rail tariff for transportation in carlots of milk in 40-quart cans, as published in the New England Joint Tariff M5 (including revisions and supplements thereto) for the distance from the railroad shipping point of such plant to the handler's delivery plant for the marketing area.

(c) *Other differentials.* In making payments to producers or cooperative associations pursuant to paragraph (a) of this section, handlers may deduct \$0.0075 per hundredweight with respect to milk received from producers in containers supplied by the handler for the transportation of milk from their farms to the handler's plant as rental for such containers.

(d) *Correction of errors in payments to producers.* Errors in making any of the payments required in this section shall be corrected not later than the date for making payments next following the determination of such errors.

§ 947.9 *Marketing service deductions*—(a) *Marketing services performed by market administrator.* On or before the 15th day after the end of each delivery period, in making payments to producers pursuant to § 947.8, each handler shall deduct, with respect to milk received from each producer during such delivery period, except as set forth in paragraph (b) of this section, 4 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient; and shall pay an amount equivalent to such deductions to the market administrator. Such amount shall be expended by the market administrator only in providing for market in-

formation to, and for verification of weights, samples and tests of milk received from, producers. The market administrator may contract with a cooperative association or associations for the furnishing of the whole or any part of such services to or with respect to the milk received by handlers from, producers.

(b) *Marketing services performed by cooperative associations.* On or before the 17th day after the end of each delivery period, in making payments to producers pursuant to § 947.8, each handler shall deduct, with respect to milk received from producers for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act" is actually performing the services set forth in paragraph (a) of this section, such amounts as are authorized by such producers, and pay an equivalent amount to the cooperative association rendering such services to its members.

§ 947.10 *Expense of administration*—

(a) *Payments by handlers.* As his pro rata share of the expense of administration hereof, each handler not a producer-handler shall, on or before the 15th day after the end of each delivery period, pay to the market administrator 5 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe with respect to all milk received during such delivery period at (1) a plant at which milk is received from producers, and (2) a plant from which Class I milk is disposed of in the marketing area to persons other than handlers who receive milk from producers: *Provided*, That such handler, which is a cooperative association, shall pay such pro rata share of expense of administration on such milk which it causes to be delivered by member producers to a handler's plant for the marketing area and for which milk such cooperative association collects payment: *And provided further*, That any amounts required by this paragraph to be paid to the market administrator shall be reduced by an amount equivalent to any amounts paid with respect to such milk, for cost of administration of a Federal order.

(b) *Suits by the market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of payments required by this section.

§ 947.11 *Effective time, suspension, or termination of order*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended, or terminated, pursuant to paragraph (b) of this section.

(b) *Suspension or termination of order.* The Secretary may suspend or terminate this order or any provision hereof whenever he finds that this order or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate. The market administrator, or such other person as the Secretary may designate, shall:

(1) Continue in such capacity until removed by the Secretary;

(2) From time to time account for all receipts and disbursements and, when so directed by the Secretary, deliver all funds on hand, together with the books and records of the market administrator or such person, to such person as the Secretary shall direct; and

(3) If so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 947.12 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture to act as his agent or representative in connection with any of the provisions hereof.

§ 947.13 *Marketing committee*—(a) *Establishment.* At the request of handlers of more than 50 percent of the milk which is produced for sale in the marketing area, the Director of the Dairy Branch, Production and Marketing Administration, United States Department of Agriculture, (hereinafter referred to as Director) may select a committee, to be known as the "Marketing Committee," which shall have as its members representatives of the various groups directly interested in the marketing of milk in the marketing area, all of whom may be selected from among the persons nominated by the handlers in accordance

with the procedure established by the Director.

(b) *Duties.* The marketing committee shall have such duties as the Director determines to be necessary and appropriate to effectuate the declared policy of the act in its application to this order, as amended, and the administration thereof, all of which duties shall be prescribed by the Director.

(c) *Compensation.* The members of the Marketing Committee shall serve without compensation but shall be entitled to expenses necessarily incurred by them in the performance of their duties, and such expenses shall be paid by the market administrator out of the assessments collected hereunder for the cost of administration hereof.

(d) *Supervision.* Each and every act of the Marketing Committee shall be subject to the continuing right of the Director or the Secretary to disapprove at any time!

(e) *Procedure.* The procedure to be followed by the Marketing Committee shall be recommended by the market administrator hereunder and shall be approved by the Director.

§ 947.14 *Emergency price provision.* Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy, or other similar payment, being made by any Federal agency in connection with the milk, or product, associated with the price specified: *Provided*, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *Provided further* That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the specified price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

Issued at Washington, D. C., this 23d day of July 1947 to be effective on and after the 1st day of August 1947.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answers of respondents, testimony and other evidence in support of and in opposition to the allegations of the complaint, and the Commission having made its findings as to the facts and its conclusion that the respondents, with the exception of the Angelus Campfire Company, have violated the provisions of section 2 (c) of the Clayton Act, approved October 15, 1914 (38 Stat. 730), as amended by the Robinson-Patman Act, approved June 19, 1936 (49 Stat. 1526; 15 U. S. C., section 13), and issued its order to cease and desist dated November 13, 1941, and the Commission having further considered said order to cease and desist after having given notice to respondents to show cause why said order to cease and desist should not be modified in certain specified particulars, and having considered the answer to said notice and the oral arguments of counsel; and being of the opinion that paragraph 2 of said order should be made more explicit, and having issued its order modifying paragraph 2 of said order, now issues this its modified order to cease and desist:

It is ordered, That respondent United Buyers Corporation, its officers, directors, agents, representatives, and em-

ployees, do forthwith cease and desist from:

1. Directly or indirectly, in any manner or form whatever, accepting from sellers any brokerage or commission, or any allowance, discount, or thing of value in lieu thereof, upon the purchase of commodities in interstate commerce, by itself, by any of its stockholders, or by any buyer for whom in fact, on whose behalf, or under whose direct or indirect control it acts.

2. Directly or indirectly, in any manner or form whatever, transmitting, passing, or granting to buyers of commodities any brokerage or commission, or any allowance, discount, or thing of value in lieu thereof, received on such buyers' purchases of commodities in interstate commerce, either in the form of money or credits or in the form of services or benefits provided or furnished by respondent United Buyers Corporation through or by means of the use or expenditure of any such brokerage fee, commission, compensation, allowance, or discount.

It is further ordered, That respondents H. P. Lau Company, Bluffton Grocery Company, Lima-Kenton Grocery Company, S. Zollinger Company, William Edwards Company, and Copps Company, and all other stockholders in United Buyers Corporation prior to May 21, 1941, their officers, directors, agents, representatives, and employees, do forthwith cease and desist from accepting from the sellers of commodities or from respondent United Buyers Corporation, directly or indirectly, in any manner or form whatever, any brokerage or commission, or any allowance, discount, or thing of value in lieu thereof, upon their purchases of commodities in interstate commerce, either in the form of money or credits or in the form of services or benefits provided or furnished by respondent United Buyers Corporation through or by means of the use or expenditure of any such brokerage fee, commission, compensation, allowance, or discount.

It is further ordered, That respondents Allison-Bedford Company, Blue Seal Products Company, Bordo Products Company, Champion Chemical Works, Cupples Company, Dean Milk Company, and J. B. Inderrieden Company, their officers, directors, agents, representatives, and employees, do forthwith cease and desist from paying or granting, directly or indirectly, to United Buyers Corporation, any brokerage or commission, or any allowance or discount or anything of value as compensation in lieu thereof upon their sales of commodities in interstate commerce, except in transactions in which United Buyers Corporation renders to them a bona fide selling service as their selling agent or broker, and does not act for or on behalf of, or under the direct or indirect control of, the purchasers in such transactions.

1. Respondent Arthur E. Koeniger,
2. Respondent Eli P. Gale,
3. Respondent Helen M. Driscoll,
4. Respondent Angelus Campfire Company.

Respondent Arthur E. Koeniger is deceased; respondents Eli P. Gale and Helen M. Driscoll have resigned their offices and positions with the United Buyers Corporation and there is no indication that they are likely to resume their previous employment with it; and the record does not show that respondent Angelus Campfire Company, a seller-respondent, has paid any brokerage or commissions to United Buyers Corporation.

It is further ordered, That the respondents, except those as to whom the complaint is dismissed, shall file with the Commission, within sixty (60) days after service upon them of this order, a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

17 CFR, Part 9331

HANDLING OF ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders, as amended (7 CFR and

Supps. 900.1 et seq., 11 F. R. 7737; 12 F. R. 1159) notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed amendments to Marketing Agreement No. 84, as amended (hereinafter referred to as the "marketing agreement") and Order No. 33, as amended (7 CFR Supps., 933.1 et seq.) (hereinafter referred to as the "order"), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the fifteenth day after publication of this report in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendments to the marketing agreement and order are formulated, was initiated by the Production and Marketing Administration as a result of a request received from the Growers Administrative Committee and the Shippers Advisory Committee, administering the marketing agreement and order, that a hearing be called to consider proposed amendments. In accordance with the applicable provisions of the aforesaid rules of practice and procedure a notice that a public hearing would be held at Vero Beach, Florida, on May 12, 1947, and at Lakeland, Florida, on May 14, 1947, to consider the proposed amendments was published in the FEDERAL REGISTER (12 F. R. 2809).

Material issues. The material issues presented on the record of the hearing were concerned with the following:

(1) Amending the marketing agreement and order to provide for the issuance of regulations which may specify that shipments of any variety (as such term is defined in the marketing agreement and order) grown in Regulation Area II, as defined in the aforesaid notice of hearing, shall be limited to grades and sizes different from the grade and size limitations applicable to shipments of the same variety grown in Regulation Area I, likewise defined in the hearing notice; and

(2) Establishing Regulation Area I and Regulation Area II.

Findings and conclusions. The following findings and conclusions on the material issues are based upon the evidence introduced at the hearing and the record thereof.

(1) The marketing agreement and order should be amended to provide for the issuance of regulations which may

¹ The deleted portions relate to rent control functions transferred to the Office of Housing Expediter pursuant to Executive Order No. 9241 (12 F. R. 2645), and have been adopted by the Housing Expediter in Rent Control Order No. 1 (12 F. R. 2988).

specify that shipments of any variety grown in Regulation Area II shall be limited to grades and sizes different from the grade and size limitations applicable to shipments of the same variety grown in Regulation Area I.

Substantial differences exist between Regulation Area I and Regulation Area II with regard to cultural, grading, packing, and marketing practices insofar as they apply to the citrus fruits covered by the marketing agreement and order.

A distinctive heavy hammock soil is found in Regulation Area II. The land within this area, on which citrus fruits are grown, is low and flat. These low lands require an elaborate system of drainage ditches, which are not found in the groves located in Regulation Area I, since such groves are usually on rolling, sandy type soils. Most of the groves in Regulation Area II are irrigated. Due to the ridging practices followed in Regulation Area II, citrus groves in such area are smaller in acreage than those in Regulation Area I. Other cultural practices in Regulation Area II, such as preparing the land for citrus fruit trees, cultivating, and control of insects differ in varying degrees from practices in Regulation Area I. Citrus fruit yields are generally lower per acre in Regulation Area II than yields in Regulation Area I, and production costs per box are higher. Fruit discoloration in Regulation Area II is more prevalent but is smoother and less unsightly. The fruit grown in Regulation Area II is, on the average, more tender and the peel is thinner than that grown in Regulation Area I. These and other differences in characteristics of the fruit grown in the two areas are due to the differences in soils and cultural practices.

Grading practices are different in the two areas. In Regulation Area I, citrus fruit is generally marketed as U. S. Combination grade¹ fruit which consists of a mixture of both No. 1 grade¹ and U. S. No. 2 grade¹ fruit. In Regulation Area II, however, the U. S. No. 1 grade fruit and the U. S. No. 2 grade fruit are separated in the packing house and are sold separately in the markets. The latter method of grading is more costly than the former method. This difference in grading practices has existed for several years. In the past, this difference has prevented the institution, at certain times, of grade and size regulations limiting shipments of citrus fruits to such grades of fruit as the then current marketing conditions warranted. If these regulations were made effective, then shippers in Regulation Area II would have been forced to change their grading practices. The proposed amendments would provide the necessary flexibility in the operation of the marketing agreement and order program to meet changing marketing conditions; and would not tend to decrease the volume of Florida citrus fruit marketed in interstate commerce. Such regulations, if

issued, would result (i) in better quality fruit being shipped; and (ii) higher average prices being received for producers for such fruit; and would protect the interest of consumers by the shipment of better fruit.

Citrus fruits grown in Regulation Area II are generally packed in the nailed wooden box whereas most of the fruit grown in Regulation Area I is packed in the wire bound box. The nailed box is higher in cost than the wire bound box.

Some differences in the marketing of citrus fruits exist between Regulation Area I and Regulation Area II. A greater percentage of the fruit grown in Regulation Area II is marketed in fresh form than that grown in Regulation Area I, while a greater percentage of the fruit grown in Regulation Area I is sold for processing than that grown in Regulation Area II. Although the production of fruit in Regulation Area II, during the last five years, constituted only 7.6 percent of the total production in the State of Florida, approximately 25 to 30 percent of the fresh grapefruit shipped out of the State of Florida during this period was grown in Regulation Area II. Citrus fruit grown in Regulation Area II commands a higher average price on the auction markets than does fruit grown in Regulation Area I. During the seasons 1941-42 to 1945-46 such prices averaged per box 48 cents higher for early and midseason oranges, 40 cents higher for Temple oranges, 28 cents higher for Valencia oranges, 43 cents higher for white seeded grapefruit, 61 cents higher for white seedless grapefruit, 44 cents higher for pink seeded grapefruit, and 45 cents higher for pink seedless grapefruit.

Citrus fruit grown in Regulation Area II competes in the market with that grown in Regulation Area I. The marketing agreement and order program is concerned with problems which arise in every citrus fruit area in the State of Florida, and the same marketing agreement and order should continue to cover all areas within the State. During the major portion of each marketing season, grade and size regulations would in all probability be uniform in Regulation Area I and Regulation Area II. The regulations should be recommended by the same administrative and advisory committees which have administered the marketing agreement and order since their inception.

(2) Regulation Area I and Regulation II should be established as set forth in the aforesaid notice of hearing.

The boundary line between Regulation Area I and Regulation Area II is a natural one geographically inasmuch as it is clearly demarcated by swamps, rivers, lakes, canals, and other natural landmarks. No groves are located on the boundary line; and along almost the entire length of the boundary line the nearest groves are several miles distant from the line. This line is almost identical to the boundary line established for the Indian River Citrus Area by the laws of the State of Florida. Such laws provide that only fruit grown within the Indian River Citrus Area, which corre-

sponds to Regulation Area II as defined in the aforesaid hearing notice, may be sold under the name or brand of Indian River Citrus Fruit.

The Federal Trade Commission has defined the Indian River Area in general terms and has issued orders in cases investigated by the commission, that shippers may not market fruit grown in Regulation Area I under an Indian River stamp or label. The Office of Price Administration established price ceiling² for citrus fruit varieties grown in the Indian River Area which were higher per box than those established for the same varieties grown in Regulation Area I.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of Marion County Growers and Shippers, and the Indian River Citrus League, Incorporated, and by Mr. W. M. Davidson. The briefs contain statements of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. Although all of the briefs do not contain specific requests to make proposed findings, it is assumed that the arguments and conclusions submitted were for this purpose and are treated accordingly.

The brief submitted on behalf of the growers and shippers from Marion County who testified at the hearing in opposition to the amendments states that there is no basis upon which the amendments can be justified and that the amendments should not be approved. The brief submitted by Mr. W. M. Davidson discussed in general terms his objections to the amendments on the basis that they would result in discrimination against his operations in the citrus industry. The proposed findings and conclusions of the Marion County Growers and Shippers and of Mr. Davidson are deemed to the extent that they are inconsistent with the findings and conclusions contained herein and because of the reasons stated for the conclusions in this recommended decision.

The Indian River Citrus League, Incorporated, proposed that the amendments be adopted. This proposal is in agreement with the findings and conclusions stated herein and is approved.

Recommended amendment to the marketing agreement and order. The following amendments to the marketing agreement and order are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

1. Add to section 1 of the marketing agreement and § 933.1 *Definitions* of the order the following new paragraph:

(m) "Regulation Area I" shall include all that part of the State of Florida not included in "Regulation Area II"

(n) "Regulation Area II" shall include that part of the State of Florida particularly described as follows: Beginning at a point on the shore of the Atlantic Ocean where the line between Flagler and Volusia Counties intersects said shore, thence follow the line between said two counties to the Southwest corner

¹ Such grades are set forth in the United States Standards for Citrus Fruits, as amended (11 F. R. 13239; 12 F. R. 1), and in the United States Standards for Tangerines (12 F. R. 2619).

of Section 23, Township 14 South, Range 31 East; thence continue South to the Southwest corner of Section 35, Township 14 South, Range 31 East; thence East to the Northwest corner of Township 15 South, Range 32 East; thence South to the Southwest corner of Township 17 South, Range 32 East; thence East to the Northwest corner of Township 18 South, Range 33 East; thence South to the St. Johns River; thence along the main channel of the St. Johns River and through Lake Harney, Lake Poinsett, Lake Winder, Lake Washington, Sawgrass Lake, and Lake Helen Blazes to the range line between Ranges 35 East and 36 East; thence South to the South line of Brevard County; thence East to the line between Ranges 36 East and 37 East; thence South to the Southwest corner of St. Lucie County; thence East to the line between Ranges 39 East and 40 East; thence South to the South line of Martin County; thence East to the line between Ranges 40 East and 41 East; thence South to the West Palm Beach Canal (also known as the Okeechobee Canal) thence follow said canal eastward to the mouth thereof; thence East to the shore of the Atlantic Ocean; thence Northerly along the shore of the Atlantic Ocean to the point of beginning.

2. Delete the provisions in paragraph (b) (1) of section 4 of the marketing agreement and in paragraph (b) (1) of § 933.4 *Regulation by grades and sizes* of the order and substitute therefor the following:

(1) Whenever the Shippers Advisory Committee deems it advisable to regulate any variety pursuant to this section,

the said committee shall recommend the particular grades and sizes or either thereof deemed by it advisable to be shipped, and any such recommendation may include a proposal that shipments of any variety grown in Regulation Area II shall be limited to grades and sizes different from the proposed grade and size limitation applicable to shipments of the same variety grown in Regulation Area I. In making such determination, the said committee shall give due consideration to the following factors relating to the citrus fruit produced in Florida and in other States: (i) Market prices, including prices by grades and sizes of the fruit for which regulation is recommended; (ii) amount on hand at the principal markets, as evidenced by supplies on track; (iii) maturity, conditions, and available supply, including the grade and size thereof in the producing areas; (iv) other pertinent market information; and (v) the level and trend in consumer income. The Shippers Advisory Committee shall promptly report the recommendations so made, with supporting information, to the Growers Administrative Committee, which committee shall, in turn, submit the same to the Secretary, together with its own recommendations and supporting information respecting the factors hereinbefore enumerated.

3. Delete the provisions in paragraph (c) of section 4 of the marketing agreement and in paragraph (c) of § 933.4 of the order and substitute therefor the following:

(c) *Regulation by the Secretary.* Whenever the Secretary shall find from

the recommendations and reports of the Shippers Advisory Committee and the Growers Administrative Committee, or from other available information, that to limit the shipment of any variety to particular grades and sizes would tend to effectuate the declared policy of the act, he shall so limit the shipment of such variety during a specified period or periods, and any such regulation may provide that shipments of any variety grown in Regulation Area II shall be limited to grades and sizes different from the grade and size limitation applicable to shipments of the same variety grown in Regulation Area I. Prior to the beginning of any such regulation the Secretary shall notify the Growers Administrative Committee of the regulation issued by him, which committee shall notify all handlers, by publication in daily newspapers, selected by the said committee, of general circulation in the citrus-producing districts of Florida: *Provided*, That when the regulation as issued is different from the recommendation of the committee, notice thereof shall be given also by mailing a copy thereof to each handler who has filed his address with said committee for this purpose.

MINNEAPOLIS GAS LIGHT CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 21st day of July A. D. 1947.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Minneapolis Gas Light Company ("Minneapolis") a public utility subsidiary of American Gas & Power Company ("American") a registered holding company. Declarant designates sections 6 (a) and 7 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than August 4, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon: At any time thereafter such declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized below:

Minneapolis proposes to borrow from banks located in Minneapolis, Minnesota, during the balance of the year 1947, the sum of \$1,000,000 on delivery of its promissory notes as follows:

Payable to	Dated	Due	Interest rate	Amount
Northwestern National Bank	8-1-47	8-1-48	2	\$250,000
First National Bank	8-1-47	8-1-48	2	250,000
Northwestern National Bank	10-1-47	10-1-48	2	250,000
First National Bank	10-1-47	10-1-48	2	250,000

Under the banks' commitment, the company is to agree that if it sells new securities (except to refund outstanding securities) or borrows additional money, it will apply the proceeds therefrom to the payment of said notes and other indebtedness to the two banks, which in each case consists of a promissory note in the principal amount of \$350,000 dated June 20, 1947, maturing nine months thereafter. The banks agree to renew any balance of the proposed loan owing at the maturity date of the respective notes for an additional twelve months. The rate of interest on any renewal of the loan is to be negotiated at the time of such renewal.

Minneapolis states that it is in process of converting its gas utility system to the

distribution of 100% natural gas instead of the present mixed gas. The total cost of conversion is estimated by the company to be approximately \$800,000 of which \$170,000 has been expended up to May 31, 1947, leaving an estimated \$630,000 to be expended during the last seven months of 1947. In addition thereto, the company estimates that its construction program for 1947 will require the expenditure of approximately \$2,150,000, of which \$1,500,000 will be expended during the last seven months of this year. The declarant states that it is unable to finance its construction program by means of long term financing pending final consummation of the Plan of Simplification and Integration of Community Gas and Power Company, American Gas and Power Company, et al., under section 11 (e) of the act and therefore must rely on short term borrowing.

The said plan relates to the dissolution of Community Gas and Power Company, a registered holding company and parent company of American, and the merger of Minneapolis into American (which will then change its name to Minneapolis Gas Company) which was approved by the Commission on April 10, 1946 and January 14, 1947, (Holding Company Act Releases Nos. 6541 and 7131) and by the District Court of the United States for the District of Delaware by order entered on April 24, 1947. An appeal taken from the order of the District Court is now pending before the United States Circuit Court of Appeals for the Third Circuit.

The declarant states that no state commission has jurisdiction over the proposed transactions and requests that the Commission's order to be issued herein become effective forthwith in view of its urgent need of the funds to be obtained from the proposed financing.

By the Commission.

Notice is hereby given that Insuranshares Corporation of Delaware (Insuranshares) has filed an application pursuant to section 8 (f) of the Investment Company Act of 1940 for an order of the Commission declaring that Insuranshares has ceased to be an investment company within the meaning of the act, or, in the alternative, if the Commission shall refuse to make such an order, for an order pursuant to section 6 (c) of the act exempting Insuranshares (1) from the provisions of section 30 (a) of the act and Rule N-30A-1 promulgated thereunder insofar as such section and rule require the filing of annual reports with the Commission, (2) from the provisions of section 30 (b) of the act and Rule N-30B1-1 promulgated thereunder insofar as such section and rule require

the filing of quarterly reports with the Commission, and (3) from the provisions of section 30 (d) of the act and Rule N-30D-1 promulgated thereunder insofar as such section and rule require the transmission to stockholders and filing with the Commission of semiannual reports to stockholders (although Insuranshares will continue to transmit and file annual reports pursuant to said section and rule).

It appears from this application that the directors and stockholders of Insuranshares have duly voted to dissolve the Corporation pursuant to section 39 of the General Corporation Law of the State of Delaware as then in force; that a certificate of dissolution was duly issued by the Secretary of State of the State of Delaware on February 20, 1947 and an affidavit showing publication of such certificate was filed in said office on February 24, 1947; that at February 24, 1947 Insuranshares possessed assets aggregating \$545,345 of which \$362,935 was in cash and \$181,614 was in Government bonds and corporate securities at market values; that Insuranshares declared a first liquidating dividend payable April 14, 1947 of \$280,180 or \$1.50 per share upon the 186,787 shares outstanding, gave notice thereof in writing to shareholders, and as at June 10, 1947, had paid \$232,394 on account thereof; that in the opinion of Insuranshares a liberal estimate of all further ordinary and all liquidation expenses is \$28,018; that there is no litigation against Insuranshares or any of the officers pending in any court; and that liquidation of the assets of Insuranshares has substantially progressed, will not be complicated, and will not involve any delay other than ascertainment and payment of tax obligations.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may see fit to impose, may be issued by the Commission at any time after August 5, 1947 unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act.
